

# Create Your Own Line Plot (Inches)

# Create Your Own Line Plot (Inches)

## Materials:

- 10 objects to measure
- Inch ruler
- Recording sheet or math journal

## Directions:

- 1) Choose ten objects from around the classroom that you can measure with your ruler.
- 2) Measure each object to the nearest  $\frac{1}{2}$  inch.
- 3) Record your data in a table with the columns below:

Object	Length (to the nearest $\frac{1}{2}$ inch)
--------	--

- 4) Create a line plot to display your data. Don't forget to label the axis and include a title.
- 5) What was the length of all of your objects combined? Show your work.
