# Sneaky Squirrel Surrender

## A Division Facts Game

Catch  
me if  
you can!

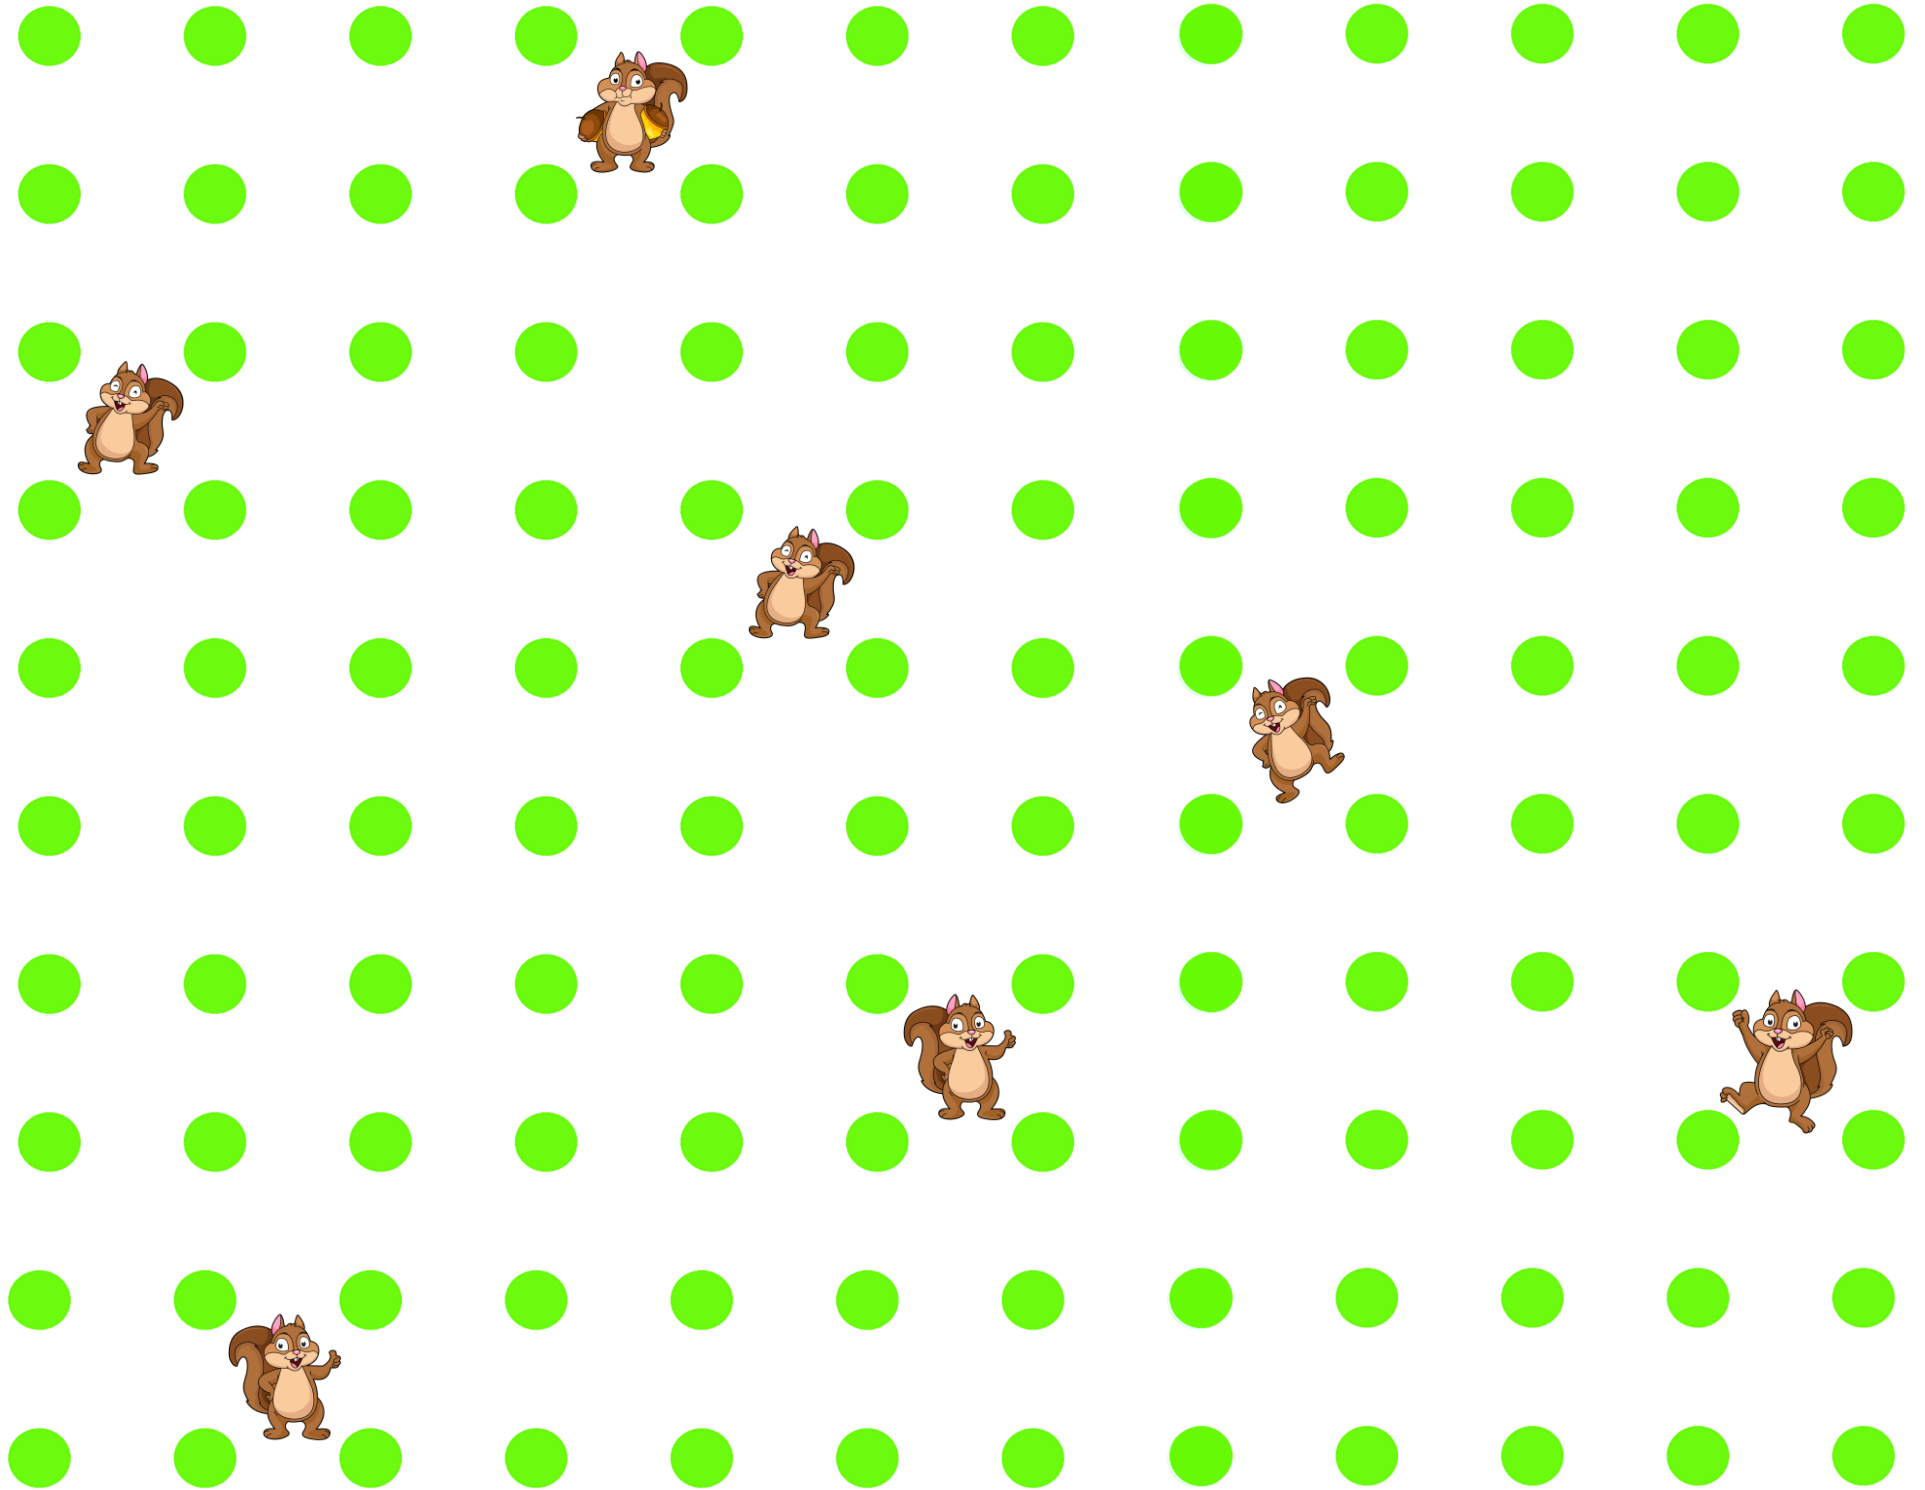

# Sneaky Squirrel Surrender

## Materials:

- Game board
- Division cards
- Different colored dry erase markers or colored pencils
- Multiplication chart or calculator to check answers

## Directions:

- 1) The game is played with partners.
- 2) Division cards are placed face down in a pile.
- 3) Player 1 picks the top card from the pile, reads the division sentence aloud, and states the answer.
- 4) The other player uses the multiplication chart or calculator to check player 1's answer. If his answer is correct, player 1 draws a line segment on the game board. If the answer is incorrect, he does not draw a line and his turn is over.
- 5) Player 2 takes a turn using the same method.
- 6) Continue to play. The player who draws a line that finishes a 4-sided box writes his initials in that box. When a player completes a box, he also gets to draw an extra line on the game board.
- 7) At the end of playing time, players calculate their score. Each box with a squirrel inside is worth 3 points. Each box with initials only is worth 1 point. The player with the most points wins.
