

Tell Me a Story

$$928 + 321 = 1,249$$

$$1,249 - 928 = 321$$

Tell Me a Story

Materials:

- Digit cards (0 - 9)
- Recording sheet or math journal

Directions:

- 1) Use digit cards to create two 3 or 4-digit numbers.
- 2) Write an **addition** story problem using these numbers.
- 3) Use the numbers to write a related **subtraction** story problem.
- 4) Solve both problems. Write the answers on the back of your paper.
- 5) Trade papers with a partner. Check each other's work.

$$928 + 321 = 1,249$$
$$1,249 - 928 = 321$$
