Remainder Race

Materials:

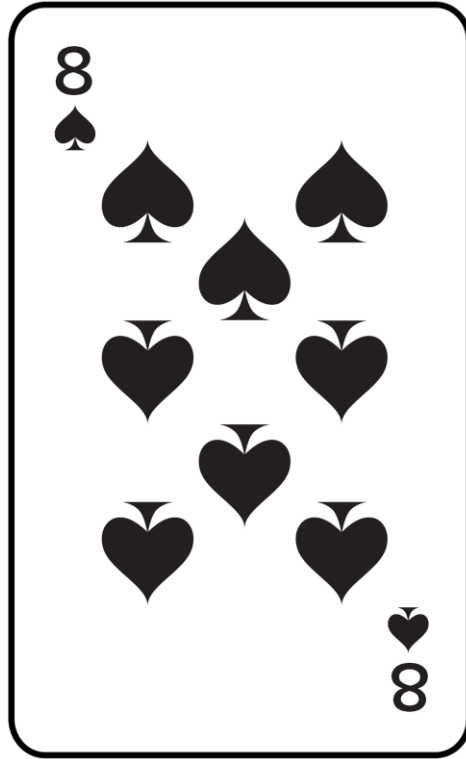

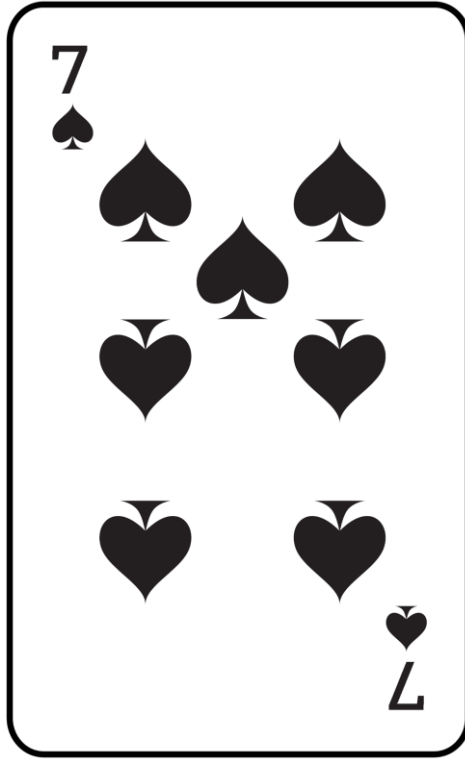

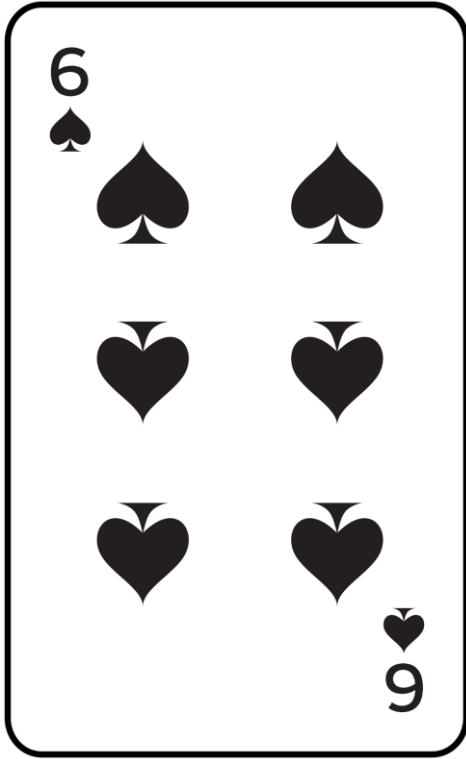

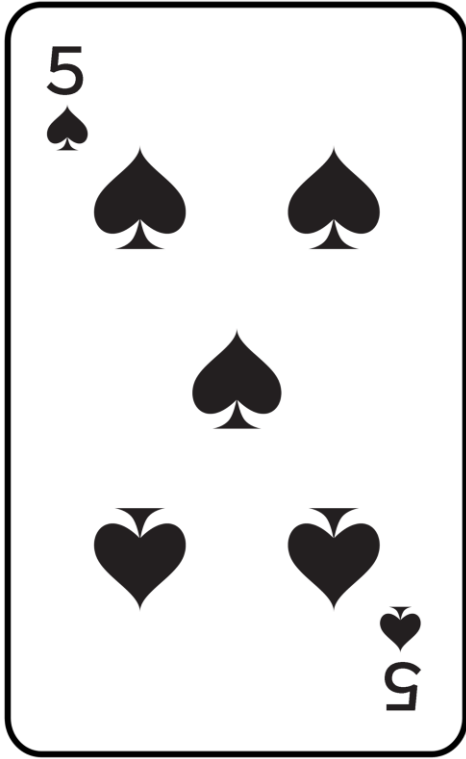

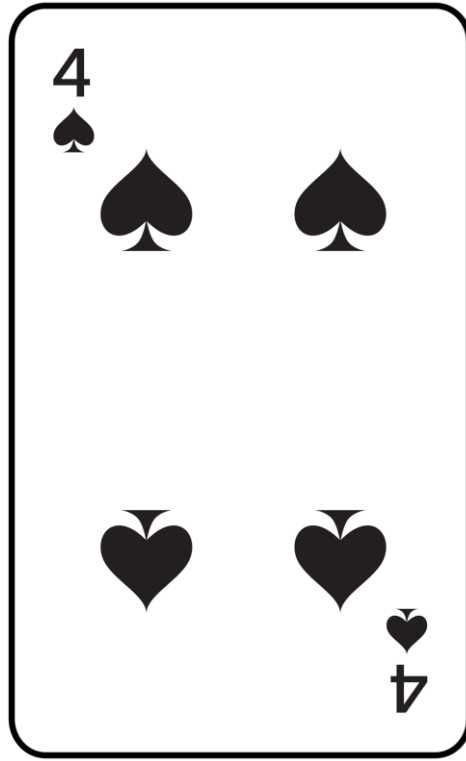

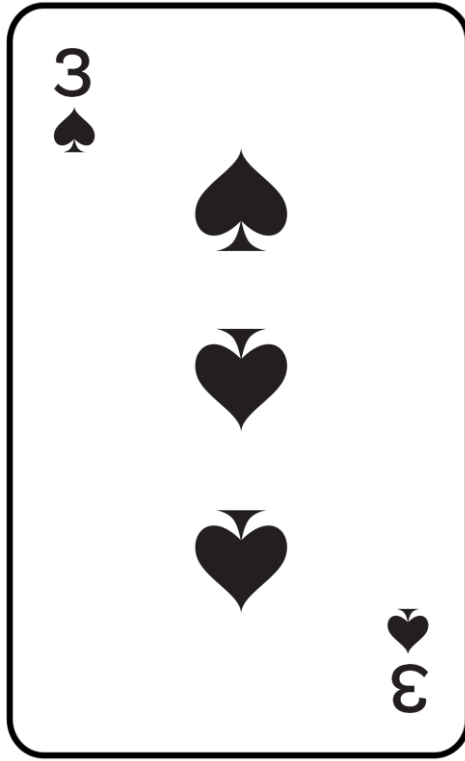

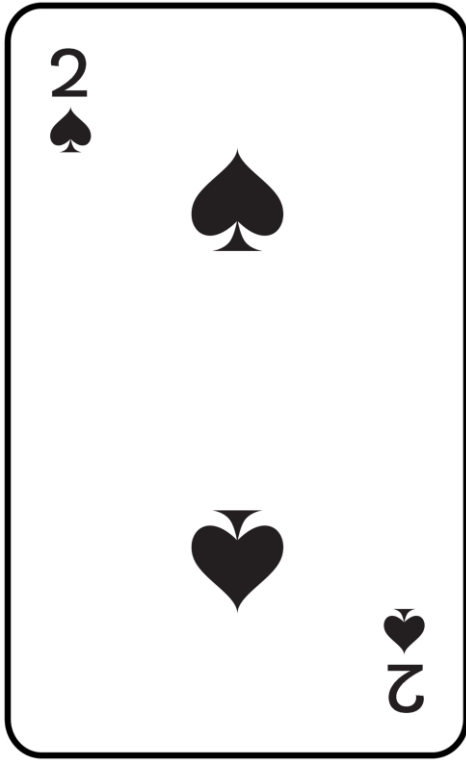

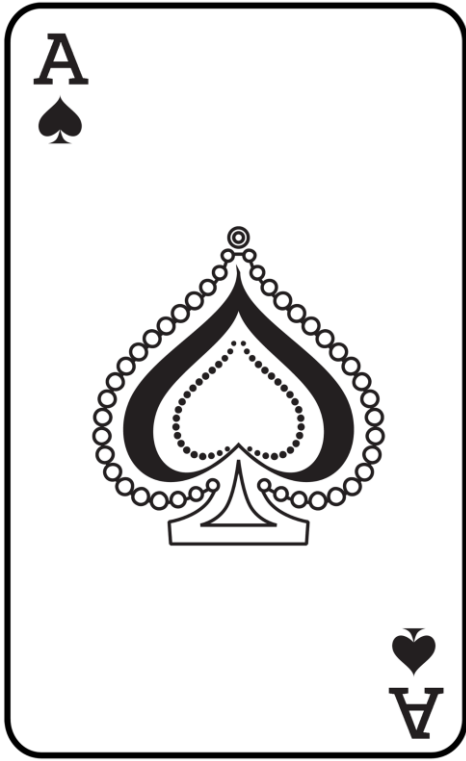

- Deck of cards (face cards removed)
- Counter or game piece for each child
- Game board (laminated or in sheet protector)

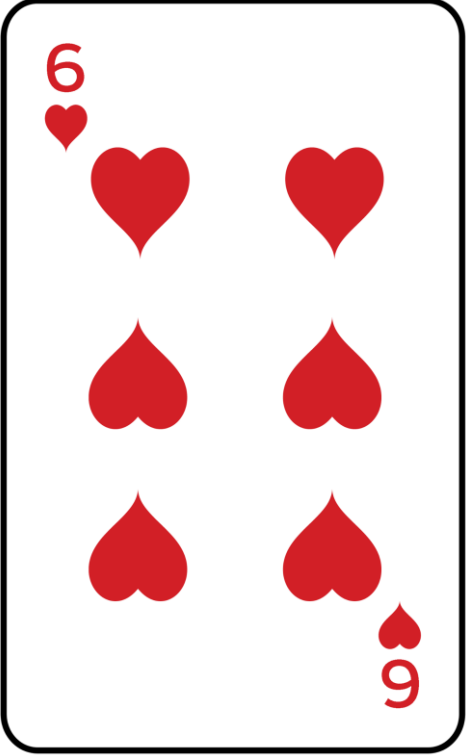

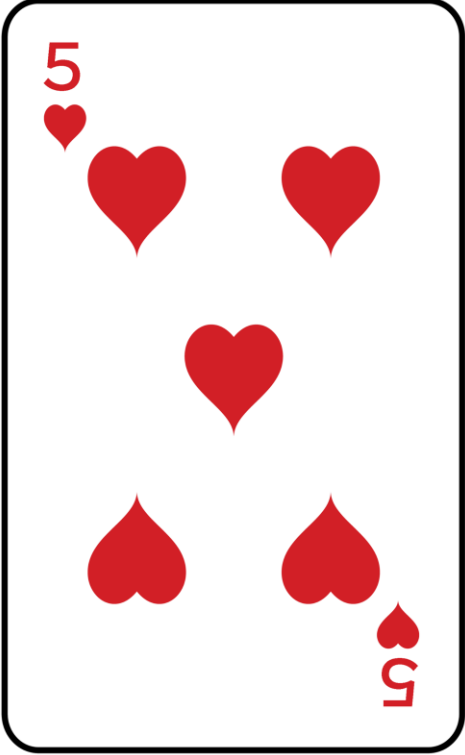

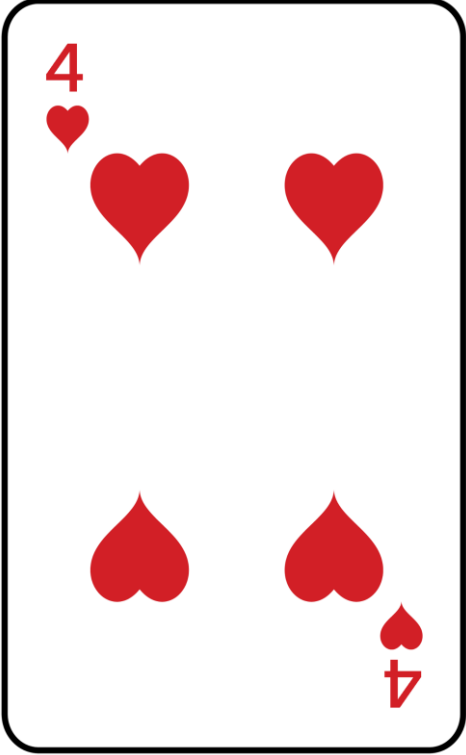

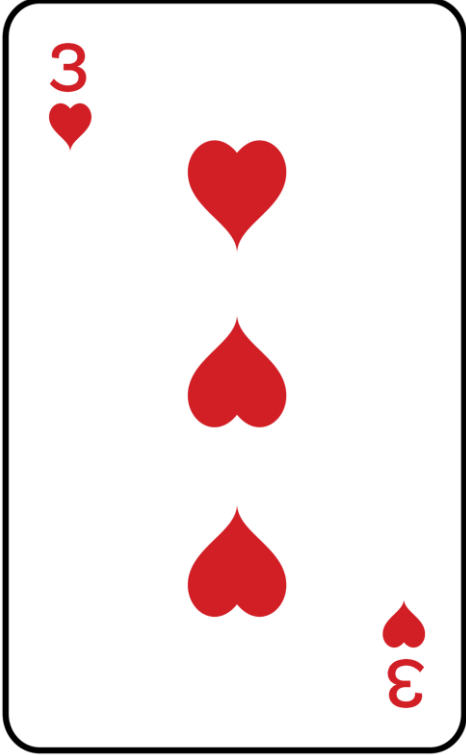

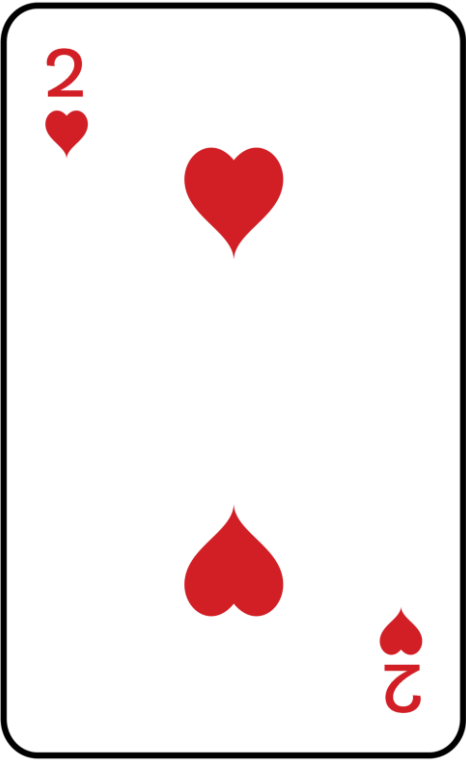

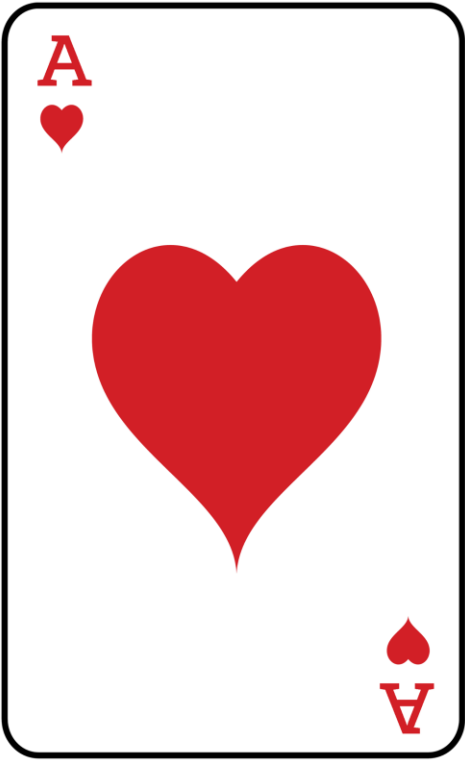

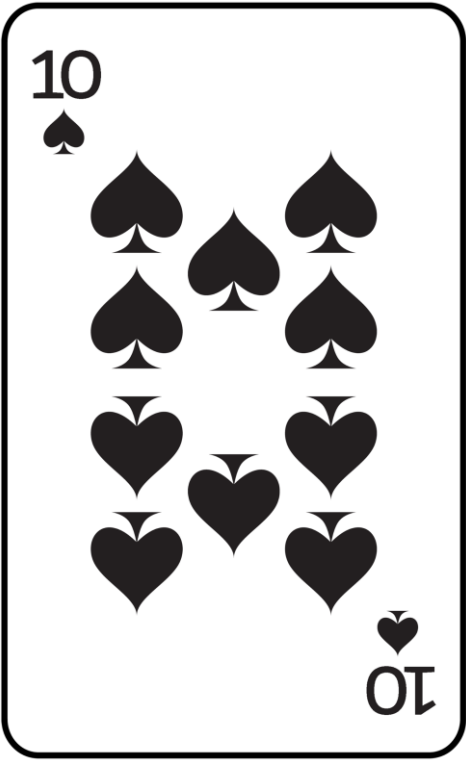

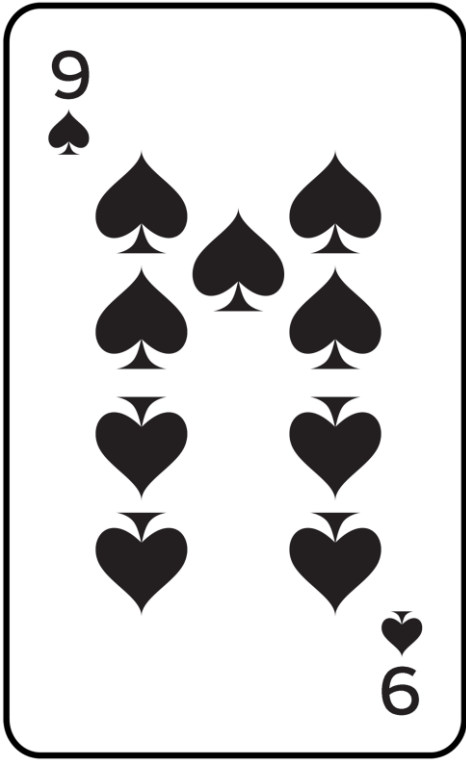

Directions:

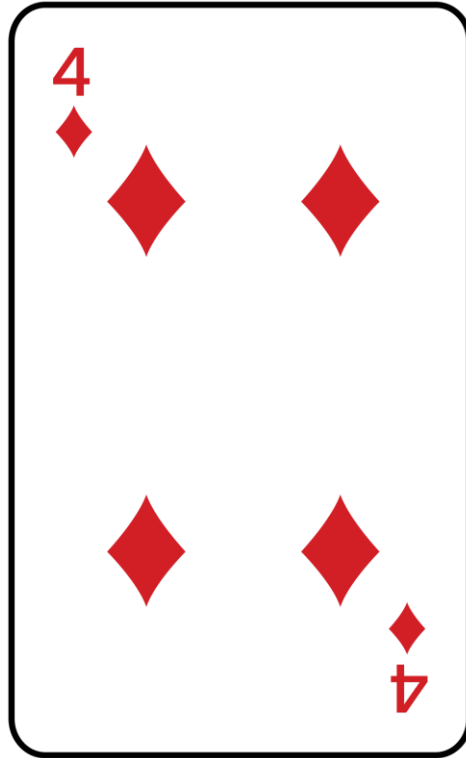

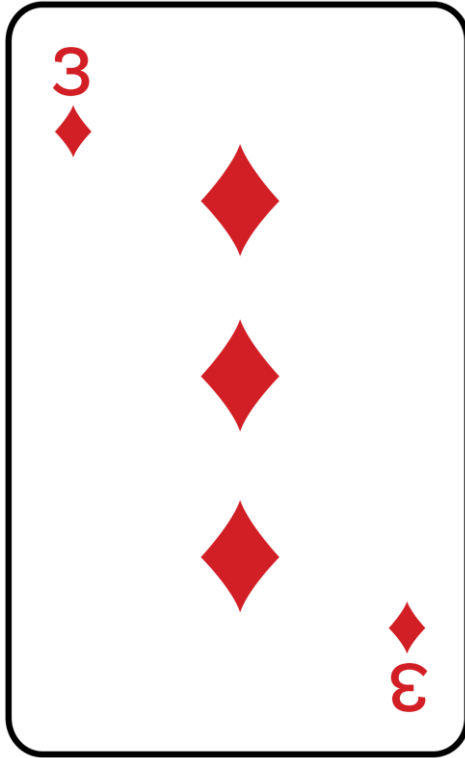

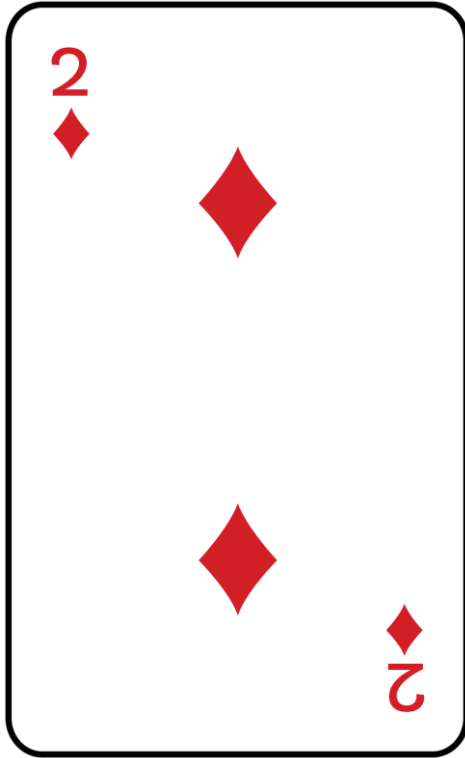

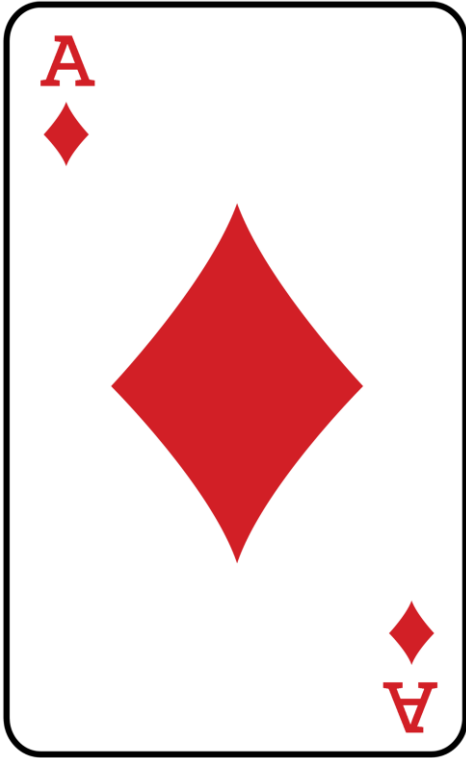

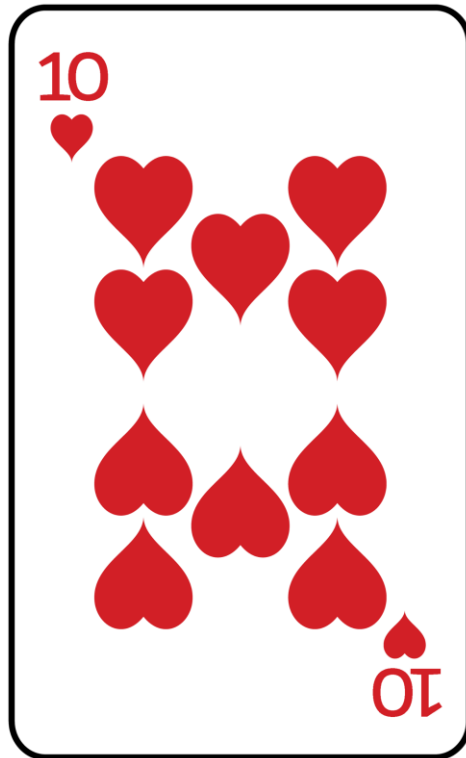

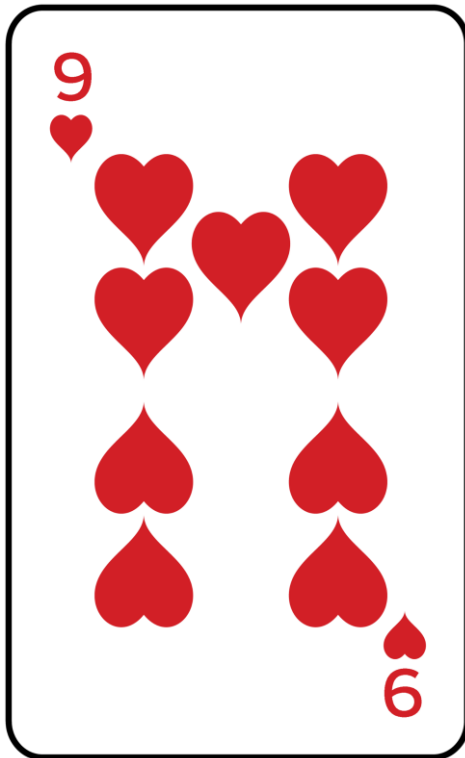

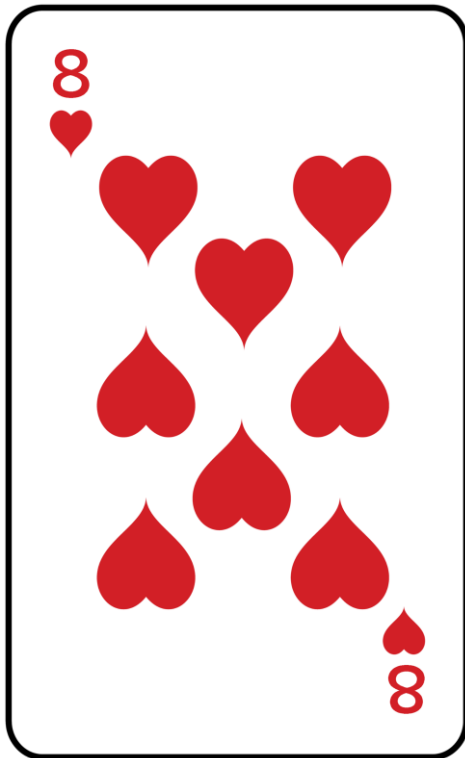

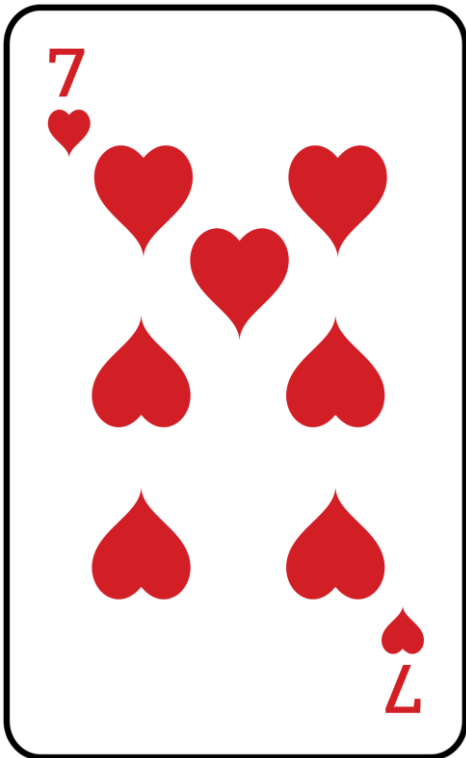

- 1) Shuffle the cards and place them face down in a pile.
- 2) Player 1 draws a card from the deck and divides the number on the square that the player's game piece is on by the number on the card. (ex. If player 1 picked a 7 card, she would calculate $34 \div 7$ because the first square has 34 on it.
- 3) Player 1 takes the remainder from the answer and moves that many spaces along the game board, following the direction of the arrows. The player 2 goes.
- 4) The first player to reach "HOME" wins the game.
