

Show Me the Money

What is the value of 2 quarters and 3 dimes?	How many nickels are in one dollar?
How many dimes are in one dollar?	Show three different ways to make 56¢.

Show Me the Money

Materials:

- Money problem board
- Coins and dollar bills
- Math journal or paper to record thinking

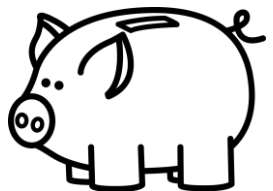

Directions:

- 1) Students work with a partner. Both partners agree on one row on the money problem board that they will solve.
- 2) Both partners work independently to solve the problems. All work is recorded in their math journals or on paper. Answers to the questions should be written sentences.
- 3) Partners share their strategies and solutions with each other. If they disagree, they discuss their work and try to come to a consensus.
- 4) Repeat with a different row of problems.

Note: If the answer is in both dollars and cents, students should record it as ___ dollars and ___ cents.

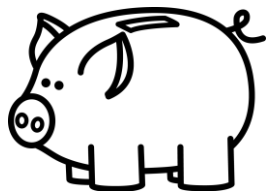

Money Board 1

What is the value of 2 quarters and 3 dimes?	How many nickels are in one dollar?	Show 45¢ without using any nickels.	Show 46¢ three different ways.
